Four chimpanzees to spend the spring festival in Changsha.³

20 January 2011

Four Guinean chimps arrived at Changsha Ecological Zoo amidst wind and snow on the evening of Jan. 17. They will meet visitors during the coming Spring Festival.

The four two-year-old chimps with two males and two females left their hometown on Jan.15 and reached Beijing Capital International Airport on the evening of Jan.16. And they started their journey to Changsha in a truck the very night after the arrival.

Changsha Ecological Zoo prepared a large comfortable house which covers an area of 1,800 m². The house is equipped with the debugged heating system to keep the room between 18-25 C. In addition, outdoor entertainment equipment are also provided, such as swings and resting shelves. Raisers in the Zoo have worked out a special recipe which includes milk, honey, watermelons, peaches, apples, little tomatoes, bread and other expensive food for the newcomers.

2-year-old orangutan favorite close "beauty" Yesterday morning, before the Chongqing Traffic Brigade Group booth around over the visitors, everyone is a special "guests" to attract, it is a small chimpanzee from Chongqing Safari Park. This cute little guy is wearing a yellow dress on the couch to roll, the crowds amused laugh, with the help of the owner, the tease over it from time to time to offer its people "kiss." Little guy is also very "assertive", some people just approached, it gallant, and some people in the past to please it, people still pay any attention to you. "Oh, it is like beauty." When everyone rebuke chimpanzees "lust", it is the guardian Lo explained that only two-year-old chimpanzee named Jenny, a girl, and her mother separated since childhood, it is particularly close to women. Hear this argument, we prefer to Jenny it.

Rijiushengqing! Together long [life](#) , Yu Hui (left) and the bud has also been some

favor. This does not, feeling good, they will be the same as ordinary people in love kissing. "Ape" wedding couple, there are fights and the Cold War safari two chimpanzees "marriage", although "childhood", but "marriage" seems difficult run-in Yongchuan Safari remember the two chimpanzee "actors" do? Once, they behaved less than people holding pictures taken. Just this week three, two "ape II" Yu-hui and bud, have completed their life events "marriage." However, this sort of like the old society "arranged marriage" is not so perfect, it was once the world so that wildlife breeder puzzled. They originally thought childhood are "childhood", "Liangxiaowucui", but "wedding" has been four days, two "ape II", had no original kind of passion, avoid each other, always somewhat out of tune. Once the animal world star this year has been 11-year-old Yu Hui, far from home in Japan. In 2001, it stayed in my mother's belly, draped ships, planes sit, take the car came to Chongqing Yongchuan. September of that year, it successfully born, has since been marked "tag", called "black ape II." And this "ape II", the rapid growth of the star of the animal world. Since it is 3 years old, began when the "actors", wearing [sports](#) clothes to play the horizontal bar, posing as a nurse visits, grimace grimace in pain constantly, always amused tourists laugh. Some tourists with a child, keep looking for it posed for pictures. But from 2008 onwards, animal trainer found "Yu-hui" poor control, the more significant irascible temper, very obedient, and love "mad with play", sometimes holding the visitors hold and so on. And it has more than 7 years old at that time, more robust physique, a slap in the force, was already an adult four or five times, in case of injury to the person supposed to? From safety, zoo find a piece of land, let alone live. Later, a leafy park yellow GE tree, tortured by it only a bare trunk. After daily visitors every glass viewing it, it will jump direction aligned with tourists, a quick photo with the palm of the glass. Sometimes create their own "weapons" to find a stone throw tourists. "Older youth" to "Quxi" chimpanzee marriageable age, almost 8 years old can be. And "Yu-hui," more than three years of marriageable age, are "older youth." Zoo experience, "marriage," the chimpanzee, than when "single" mature. In addition, as the ape second generation, but also for the reproduction of the next generation of consideration. Zoo to "Yu-hui," looking "wife", it is a year younger than it grew up with him on the stage of "childhood", one called "bud" chimpanzee. From safari provided [photographs](#) can be seen, from the urine of these two apes are "Liangxiaowucui." Photo was taken a few years ago. Which one is the "Yu-hui" left holding a bouquet of roses, and gave "bud", as in affection. The "bud" a very important way, then rose, with the hands, eyes tightly pegged roses. There is a picture, looks very "affectionate", "Yu-hui," outstretched hands, the "bud" pour into the arms, looks particularly funny. "Ape generation" combination is not smooth lad Ye Jianwei, is designed to take care of this "second generation ape couple," the breeder. He said that on April 11, "bud" official check "Yu-hui," the residence, even if the "marriage" was. Here is a 200 square meters of open space surrounding a dedicated room, is their "bedroom." Two "ape II" has not seen for four years, but still know each other. Before the door, looked very excited. But the next thing, let Ye Jianwei surprised, "Yu Hui" excited for a while, beat the "bud" to shake off, two orangutans began to

fight. Much emaciated body to "bud", which is "Yu-hui," the opponent, a few rounds down, "bud" Shuangshoubaotou, said surrender. Next, the "bud" has been to stay away as long as "Yu-hui," one approached, it ran away. "I kept telling them with a unique action, two belong to the spouse, but they still can not sit a bunch." Ye Jianwei said. "Bud afraid Yu-hui, according to these four days of reaction, it felt Yu Hui temper becomes large, and not the same." Ye Jianwei said, now two "ape II", in fact, still do not know how to treat each other. "But I believe there will be change after a month, the couple apes, like humans, need to run-in period."

Although the rehearsal, but did not affect the animal star of the show desire.

Dalian Forest Zoo imported eight chimpanzees Kenya

30 June 2010

http://www.lnciq.gov.cn/ywpd/dwvj/gzdt/201006/t20100630_39674.htm *(translated using google translate)*

June 29, by the Dalian Forest Zoo imported from Kenya eight chimpanzees arrived in Dalian and into quarantine. Liaoning Bureau of Animal Quarantine Department conducted according to the provisions on animal quarantine and supervision, the current animal is in good health, if all goes well, these animals after 30 days in quarantine and will be released to meet with visitors. Once such a large number of imported chimpanzees, this is the first time in Dalian.

It is understood that, beginning in 2009, the Dalian Forest Zoo established in the park happy primate park, showcasing a variety of rare primates in order to enhance the attractiveness to tourists. There are currently happy primate park chimpanzee, monkey, Eastern black and white colobus monkeys and other rare primates, more than 22 kinds of 200, this eight upcoming "new customers" will undoubtedly play a role in happiness primate park icing on the cake.

South Africa World Cup in full swing, discuss football, Imagine Africa is the most popular topic. Dalian Forest Zoo aspects actively communicate with African counterparts, the success of the introduction of eight from Guinea chimpanzees. They are now collective debut in Dalian Forest Zoo nursery center.

It is reported that eight five female three male chimpanzees, are 1-2 years old subadult. Them from Guinea through air and land transport, hell and high water, the mountains came to Dalian, China, came to the Dalian Forest Zoo to their new home in the well-built. Chimpanzees who purchase a new home with new slides, a small table and a small colored stools, as well as wood and rope making activities to their perches, so that orangutans are indoor and outdoor living can also play as play.

To make it eight healthy growth of small apes, zoo arranged for them four "super dads" 24 hours in charge of their daily diet. Give room regularly disinfected daily, but also food to feed three times, three times, milk, food can be described as a small gorilla variety, color range, cherry, watermelon, peaches, apples, tomatoes, bread, and other nutrient-rich foods. In addition, the "Super Daddy" every night even got up once every two hours, to observe the latest small orangutan and record, like to take care of a baby gorilla who gave little detail of the most intimate love.

It is understood that eight chimpanzees clever and lively, different personalities, each have their own temper. There are a few relatively large chimpanzees are willing to embrace each other, and this one has a slightly larger gorilla also showed his leadership, to do their utmost to protect the other chimpanzees, lest they hurt. Estimated to grow up to become the leader of this group of chimpanzees. There is a smallest chimpanzee character somewhat eccentric, but docile. It unwilling and other similar together. Yet still he is willing and human closeness, love and domesticated member hold together, especially people willing to touch, always sticking to the body like domesticated member of coquetry, it is also particularly liked. Get a lot of benefits, delicious, fun everybody start to it.

This eight small chimpanzee in the future will become the Dalian Forest Zoo comprehensive animal performances of a new generation, "ape." It is reported that chimpanzees domesticated performances in Dalian Forest Zoo has a fine tradition. Up to now, the park has trained the first generation of chimpanzees star "hairy", who in the 1980s hit the animal CCTV drama "Elmo and Harry" in any of the protagonist, the second-generation star "again and again", the third-generation star "Dino" and the fourth-generation star" Mina. " This is the fifth generation of the identity of the team will be a combination of star debut, the zoo plans to rehearse regard to animal sitcom starring orangutans, chimpanzees eight each have their own roles. Enriched the content of performances, more attractive to the eye of the visitors. Zoo aspects of the program in October of this year, these small apes began formal training basis for the early launch of eight chimpanzees performances.

Guangzhou zoo small African chimpanzees

6 February 2012

<http://roll.sohu.com/20120206/n333816794.shtml> (translated using google translate)

Guangzhou Zoo animal nursery open innovation, five chimpanzees school children obediently Shuang Lin Xingrong correspondent intern last year, five chimpanzees children from Africa arrived in Guangzhou, Guangzhou Zoo initiative to provide outdoor "nursery" of community life for them. After several months of "learning", which has five chimpanzees understand kindergarten "teacher" in Cantonese. Animal Nursery School play along five chimpanzees, two men and three women, no blood, minimal "Missy" just over a year old, the biggest "year after year" 3 year old. Guangzhou Zoo opened in October last year, a special "little gorilla kindergarten" for them. As long as it does not rain, they will be able to outdoor nursery vast world of playing with each other and play. The previous chimpanzees are brought up in cages. Kindergarten there for them to climb trees and stakes, play a variety of facilities to them hanging ropes and hammocks, etc. Once tired, give them for a number. Guangzhou Zoo relevant responsible person said, chimpanzees are social animals, so that they are on "Kindergarten" is not only beneficial to health, but you can make a small gorilla social life when they are young so that they learn to play the course in a happy harmony. "If you let it reach out to reach out and let it mouth to mouth. Injections in medical and sick when they do not have anesthesia, anesthesia toxic side effects of drugs on the body of an animal." The official said.

"Teacher," they speak Cantonese understand reporter found that this little guy is carved into five distinct factions, last April the first to Guangzhou, "year after year", "flower", "sheep" three gang last June to the "Missy" and "Aoao" the most intimate relationships. Ji sister is these small chimpanzees, "teacher", she said, is the most mischievous, "year after year", often Tricky honest "Aoao" see "Missy" and "Aoao" hold together, often would rather abruptly rushing from behind, clinging Xipixiaolian "Aoao" rolling on the ground. Ji said Tuesday, examination and treatment should not have to fight narcotics purposes can be achieved. Currently every basic command can be used only in Cantonese chimpanzees. "I've seen the most powerful is the" year after year "grab companion clothes, Ji sister'll teach it, called out:". "Flower really immediately rushed over to grab the

Hangzhou Zoo "Summer Trio" August waiting for you to

August 9, 2011 05:22:56 [Zhejiang Online news site](#)

Zoo introduced a new six chimpanzees in Africa to come this year. The reporter Dong Xuming photo

Zoo are just introduced this year collecting toys cute little orangutan, if you have idle children toys at home, might get a science education center in Hangzhou zoo ape for these kids to play.

Duet idle baby toys, you can give a small gorilla

Earlier this year, Hangzhou Zoo introduced a six chimpanzees in Africa to come, in addition to the "boss" a little older, there are already 5 years old. The remaining five are less than two years of age, the minimum "youngest" now more than six months. This does not, it came not long after, these adorable baby ape who has become a popular king Hangzhou Zoo.

According to the staff of Hangzhou Zoo introduction, this six chimpanzees different character. Among them, the girls and boys, the youngest boss relatively quiet, the second and fourth of the more playful. In particular, ranks the fourth, though a girl, but it was a playful ghost, one day most of the time playing, but also like the breeder when cleaning the trouble, while bucket tipped, while they rob broom. Five is a big eaters, milk great, if not drinking enough will hold tightly grasped the bottle. The smallest is the youngest a coward, a ring would have a panic.

However, although the character is not the same, but six chimpanzees have in common, is like playing with toys. In July this year, it moved to a new home a few small apes, the staff carefully arranged specially for them a lot: a big slide mounted with tires made a few swings, also installed several of the climbing rope. Now five smaller orangutans live in one room, the boss and the other two gorillas live in the park together.

Yesterday afternoon, the reporter came to Hangzhou Zoo Gorilla Museum, five small gorilla in the room of 100 square meters are having all the fun. Some performers swing, climbing some performances. Play happy, they also patted his chest. Staff, these ape baby like a child, like, what are full of curiosity. Therefore, they are also often do fun toys to them, such as stuffed peanuts tennis, dolls and so on.

So, how kind of toy is suitable for small gorilla playing? When choosing toys for them, what should pay attention to? Staff told reporters, ape baby to play with toys the most important thing is safety.

⁶ <http://zjnews.zjol.com.cn/05zjnews/system/2012/03/25/018356780.shtml>

"For example, some of the dolls, but do not be the kind of plush toys, baby orangutans because they may put on the pull down plush toys, stuffed into the mouth, so that is likely to be blocked intestine. Babies often play building blocks of wood material, the material is relatively hard plastic buckets, football, basketball, these can be. "and wait until the people take over the toy, the staff will also be screened.

New chimpanzees at Hangzhou Zoo to perform for children aged 6-12

March 2011

<http://www.whatsonningbo.com/tag-Hangzhou%20Zoo.html>

Hangzhou Zoo has bought six new chimpanzees and will show them to children aged 6 to 12 this Sunday. The zoo has also prepared themed activities for young visitors. Children can visit the chimps' new home where a zoologist will give lectures on chimpanzees, their natural habitat, diet, social behavior and skills. A science film about the intelligent animal will also be screened.

Chimpanzees in Africa to Hangzhou long frostbite "immigrants" anniversary invite you to play

March 25, 2012 08:14:52

Zhejiang Online news site

<http://zjnews.zjol.com.cn/05zjnews/system/2012/03/25/018356780.shtml> *(translated using google translate)*

Zhejiang Online March 25 hearing six small chimpanzee Africa and Guinea were the first to see so many people, for the first time to eat called "peanuts" delicious, colorful basketball first contact, but also the first time that accompanied by a lengthy winter frostbite.

African small chimpanzee recovering from frostbite Second child and became a "locomotive", the fourth of the body lying on the back of her second child, wrapped his arms and hugged her second child in the chest, Five are in the same position holding the fourth of selling Meng 3 cute little chimp as adhesive as conjoined twins, togetherness. Yesterday, the reporter walked into a small chimpanzee Hangzhou Zoo home, "restless king" ranks the fourth put the two long arms stretched Lao Gao, jump up on tiptoe gently, as if to say: "I want to hug ! "frightened frightened, I did not dare to hold it, just gently hand, pull the furry little paws. Fourth of fingers on both hands as well as more new frostbite scars, while the left middle finger joints are also cracked mouth with blood, about 1 cm long.

"Climate-day difference between Hangzhou and Africa do not, we will send some signals on a small chimpanzee's body, showing that they adapt to the weather in Hangzhou. Since last December, the weather was starting to turn cold, dry air, a small chimpanzee skin on Because cold water and cracks, "Hangzhou zoo science center director Clement told reporters primate limbs to walk, and in particular the role of arms bigger - when you move, they are not using two palms stays, but the fingers bent, fingers tightly squeezing the palm to grip the bowl way to crawl forward. Thus, the knuckles are the most flexible and most primates sensitive parts.

Today on other small chimpanzee fingers could not see the cracks, but the fingers black, also thickens the epidermis. Clement said that after the disappearance of cracks on the fingers, their fingers will be black, darker, to the hotter weather, when the old skin will fall off, grow new skin, the color will be restored as ever. This year, there are too many small chimpanzee new experience.

Eurasian continent and the African continent, in addition to differences in climate, the environment is completely different. African forest, the ratio is about 2:8 indigenous people and animals, both living like weekdays drew a clear demarcation line, almost never in contact with. And here, too small by human pet chimpanzee, humans have learned manners - clapping, the bad kind - the first time they spit holding 200 ml of baby bottles to drink milk, eat first is called "peanuts" delicious, colorful basketball first contact from African forests to "Impression West Lake", from the wild to captivity, close to the "Africa" label small chimpanzee inexperienced, stumble WTO.

Chimpanzee "Wan Star" to "married" the

02 June 2009

<http://news.qq.com/a/20090206/000501.htm>

Hefei chimpanzee safari "Wan Star" has been a four year old birthday, to the "gonna get" age, it does not, the zoo staff has begun to "Wan Star" marriage is busy again.

"Wan Star" December 6, 2004 born, is downright "Hefei" Yamamoto father and mother Miyoko are from Japan, Miyoko has also been the "sterilization" operation. Surprisingly, in 2001 to the Hefei Wildlife Park after his wife Miyoko actually successfully pregnant. After a "July pregnancy" after Miyoko on December 6, 2004 morning gave birth to a female chimpanzee, Hefei enthusiastic people also gift her a lovely name - "Wan Star."

"Wan Star" coming to Hefei Wild Animal Park has brought endless joy, but also realized the province zoo chimpanzee breeding "zero" breakthrough. Since Miyoko no parenting experience, newborn "Wan Star" had to leave her mother, the zoo's full-time "nurse", "Daddy" to take care of.

Instant "Wan Star" two years old, the time to learn skills, Hefei Wildlife Park hired exclusively from Hebei Wuqiao trainer, gifted the "Wan Star" From beginning to learn social etiquette, gradually learned to ride a bike, skipping, handstand walking and many other programs, popular with tourists alike. In 2007's "October" Golden Week, "Wan Star" also held "personal special performance", funny, naughty face plus the presence of superb skill to win plaudits all viewers.

With age, "Wan Star" to the "talk of marriage" when. For "Wan Star" Marriage, Hefei Wildlife Park staff can not neglect actively **preparing to introduce two chimpanzees contact. This two chimpanzees are specially imported from Africa and Guinea, one male and one female, age and "Wan Star" is similar (4 years old).** the purchase price of about 350,000 yuan, the procedures currently being processed, the public can expect in Hefei This year in September saw the two "African guests." Why introduce a male and a female? Jiang Hao, deputy principal of Hefei Wildlife Park introduced mainly consider a voiding problems such as inbreeding and venues. (Chen Yuanyuan reporter Wei Qu)

Four-year-old male chimpanzee Yangyang holds the hand of six-year-old female chimpanzee Wan Xing as they "get married" at a zoo in Hefei, in east China's Anhui province...

Splush
Chimpanzee wedding ceremony⁹
28 September 2010

Chimpanzees celebrate wedding after arranged marriage A pair of chimpanzees have been married in a ceremony at a zoo in China - surrounded by photographers recording the happy occasion.

The happy groom for the day was four-year-old Yangyang, who it turns out is a bit of a toyboy (in chimpanzee years, at least), as his blushing bride Wanxing is six years old.

Admittedly, we don't actually know if she was blushing. We're not entirely sure how you'd tell if a chimpanzee was blushing. Do chimpanzees actually blush? Google isn't much help on this one.

The marriage was actually an arranged one - Yangyang, who was born in Guinea, moved to the wildlife park in Hefei, in eastern China's Anhui province after he was selected as being Wanxing's future hubby in 2009.

⁹ <http://spluchster.blogspot.co.uk/2010/09/chimpanzeess-wedding-ceremony.html>

It wasn't a traditional white wedding - the bride wore a pink top and fetching multicoloured hat, while the groom wa sresplendant in a green, blue and yellow jumper and a rakish kerchief. Both also sported gigantic red ribbons, of dubious practicality.

The wedding was described as 'symbolic', although we're not entirely sure what it was symbolic of, other than the zoo's desire for the chimps to get it on good style. Which we're wholeheartedly in favour of.

Six African Chimpanzees National Laichang

10 September 2009

http://www.ncnews.com.cn/ncxw/qwqs/t20090910_486532.htm (translated using Google translate)

Nanchang News Network six young chimpanzees across the seas, from Africa to China, arrived in Tianjin last month, temporarily, after where he spent the animal quarantine period, will meet during the National Day rush Nanchang citizens. To make chimpanzees in love with the hero city, in cooperation with Jiangxi City Zoo Roots & Shoots environmental cultural center ("Roots and Shoots" founder of the Jane Goodall and chimpanzees in Africa have lived together for nearly 40 years) of the gorilla pavilion implementation "enrichment" to strengthen animal welfare, so that chimpanzees in the zoo also live a happy life natural rustic charm. Newspaper from now recruiting volunteers small, furnished full game for the chimp's new home, prepare a variety of small toys, meet the group of African-off from afar.

Six chimpanzees to develop smart

Yesterday, reporters rushed to the Nanchang Zoo, zoo chimpanzees stadium is being done to reinvent. Liu Kechang science department, told reporters that the traditional way in captivity have been behind the times, but do not meet the requirements of the protection of animal welfare. The so-called "enrichment" is also called environmental richness, that is, through frequent replacement facility within Shoushe, such as large stumps, hammocks, bamboo, plastic toys, etc. to stimulate the animal's curiosity, increasing physical activity, especially intellectual development. Gorilla Museum "enrichment" Work is only a beginning, the zoo will be gradually carried out for all Shoushe enrichment, it will be a long-term task, and also welcomes the public to participate.

Newspaper small volunteer recruitment

To this end, Jiangxi Roots & Shoots organization took the initiative to Nanchang zoo gorilla pavilion together for "enrichment" advice. The six chimpanzees settled in Nanchang, they will have to face is no longer just the walls and fences, then a soft hammock, swinging on the swings, hiding food and bamboo stumps, and even the kinds of toys kids will appear in front of them . I believe they will love this new home soon.

Newspaper from now recruiting a small volunteer, in addition we also published a small favorite toy gorilla, if you happen to have such a toy at home, might as well share with gorillas, chimpanzees to Chang, the newspaper reporters and small Small volunteer who will come to a close with a chimpanzee, happy to play games together! Our hotline: 6810004. (Reporter Zou Hongmei)

An administrator holding the other two orangutans. Van 晓林摄

U.S. blockbuster "King Kong" so many people are infatuated with chimpanzees moved to marvel at. Yesterday, Nanjing Hongshan Zoo from Africa and Guinea introduced a male and three female four chimpanzees, just an appearance, and immediately became the most talked about park "star."

Although they are the oldest "ape sister" has only 5 years old, is the human childhood. However, their behavior was like King Kong as people moved. Face smaller companion, "ape sister" has been protected by his arms tightly fear of "ape girl", continue to use way to comfort each other hugs and kisses.

"Ape sister" holding "ape girl" and refused to leave

This age of four chimpanzees is very small, the largest "ape sister" 5 years old, looks like the size of an adult monkey, smallest "ape sister" but two years old, it still worldly. The trip, for them to be called "trek", flying a dozen hours from Guinea, at 6:30 pm the day before yesterday was ready to turn arrived in Guangzhou, one night only after 11:30 yesterday to the red Mountain Zoo.

Four chimpanzees installed every two minutes in a box, just open one of the boxes, which are actually small gorilla holding a staff in one hand up, good to impress. The 5-year-old "ape sister" and 2-year-old "ape girl" with another box, is indeed slightly larger ages, "ape sister" jumped up on a floor, do not feel afraid. Touches on the same box, "ape girl" curled up in the box, refused to move out. See the staff should "ape girl" hold out, something unexpected happened. "Ape sister" even grab a hold over "ape girl", it tightly in his arms, and refused to leave, the staff could not close.

Everything is very strange, "ape girl" seemed a bit of panic and fear, "ape sister" kept hugging and kissing chimpanzees, orangutans little more tightly around "ape sister" of the neck, refuses to let go. See staff to forcibly take away my sister, "ape sister" suddenly crying roar, his hands to shoot at all spring to the staff. A full hour, and the staff it has been playing the "guerrilla", the staff is also helpless.

Playful orangutan started crying stewardess

Are they related by blood? In fact it is not, comes from the Guangzhou accompanying Master Zhao is responsible for "escort" It's four orangutans to Ning. He told reporters that the four gorillas with no

blood relationship, but chimps and humans are most similar to the higher animals, they are very smart. "As social animals, they instinctively 'hold together'." Master Zhao said the chimps to their new roles depending on the environment. "Especially when in danger, experienced older chimps will bravely stand up 'hold the line'."

"Ape sister" smart Zhao master early in Guangzhou on experience before. Master Zhao recalled, the plane arrived in Guangzhou that night, he put the gorilla let out some air. Easy to put out, you had better go back and difficult. A few other small apes, also done about it. But "ape sister" does not like to be constrained, refused to return. "We use fruit teaser, with gestures, what tricks are to make, and can it boogie, still 'rock solid' neglects." In desperation, Zhao master thought brought a cover of the "ape sister" caught, but no His trick has long been thought wise ape sister to see through, catching ape attempted, Master Zhao's left middle finger actually been "ape sister" bite green.

See Zhao sadly away, orangutan mother very proud, walking with measured steps they came to watch the aviation side next to a flight attendant, the beautiful stewardess out his hand. I did not expect flight attendants will take the initiative to find her gorilla handshake, his hand excitedly in the past. This extension does not matter, "ape sister" actually grabbed the flight attendant's hand tightly, and also kept desperately shaking. "Although it is not very old, the effort already the equivalent of an adult." Never seen this battle stewardess was badly scared to cry. "From 0:00 until 4:00 to toss, that way we do not have. Finally tired of its own, only to go back to sleep."

After going to school in Nanjing Hongshan words

To welcome the arrival of the chimpanzee, gorilla zoo reinvent the museum, which is decorated like a baby room in general, hanging baskets, stumps and other recreational facilities everywhere. Because from the tropics, "bedroom" in the radiator also installed to ensure the gorillas live in temperatures above 20 °C in, you can resist the invasion of cold air. However, arrived in the zoo, when chimpanzees were really shivering from the cold, there is a small gorilla readily took the side of the body draped overalls went, and made the staff laughing.

They like to eat the fruit of that. Come from Guinea, boxes are filled with tropical fruits. "To Guangzhou when they are inside the fruit are eaten." Staff readily added into the bananas, apples, oranges, did not expect quite popular. "Peel peel and eat peanuts are yourself, no breeder effort."

However, the problem may be the language of the trouble spots. This orangutan got used to a few words of Guinea, to Nanjing, the Nanjing did not understand the words. Staff can use body language to express "I hug up" the. Of course, this is also not worry too much, they are after training, their ability to do even more than two years old child, understand Chinese, but sooner or later.

Arrived in Nanjing chimpanzees are receiving quarantine until a month later, visitors can see the shadow of their lively.

Big gal: chimpanzees.

Say it is very interesting, in fact, as early as a few months ago I knew Yantai Zoo chimpanzee could have, because a friend told me in Qingdao, Yantai and Qingdao zoo zoo sent to study chimpanzees specialized feeding techniques, this to the zoo, where The purpose is to see whether a chimpanzee has been introduced. See also later came to be expected, but really did not expect such a small two. When I take pictures of people actually came out to stop the zoo, said to be confidential, and you have also exhibited a confidential, multi ridiculous things.

But the problem is the two chimpanzees is very small, and so grow up, Yantai Zoo to have somewhere to put these two chimpanzees exhibit it? Is indeed a big question, which is not unfounded, this is the problem soon facing chimpanzees this highly intelligent animals, if the display environment is too small, too bad, certainly raise bad.

Two chimpanzees hug each other to keep warm at Qingdao Zoo

4 January 2013

<http://theworldweshare.com/zoo/two-chimpanzees-hug-each-other-to-keep-warm-at-qingdao-zoo-photos/>

What are friends for if not to keep you warm on a cold day? Two adorable chimpanzees were photographed doing just that at the Qingdao Zoo on January 3, 2013 in Qingdao, Shandong Province of China.

Afterwards the pair stayed close in a hammock, while hamming it up for the cameras!

Adding to the cuteness, one of the chimps stuck out his tongue as he enjoyed some time to himself on the radiator.

To breeder at a "big black" oxygen.

To breeder at a "niu" oxygen.

Recently, the capital of Urumqi warm and cold weather changes frequently, Xinjiang Tianshan Safari Museum in gorilla chimpanzee "niu" and "Big Black" are infected with pneumonia.

Responsible for the care of "niu" and "Big Black" veterinarian Harlech introduced as locked in cages for a long time, sleep at night, Talia must go to the second floor of the "bedroom" from the floor "living room", during which go through a window, two mischievous little guy likes to play in front of a window, the result "big black" cold, and transmitted to the day and it together, "niu."

It is understood that the chimpanzee is tropical gregarious animals, when the outdoor temperature reaches above 18 °C is suitable for outdoor activities. "Niu" and "Big Black" At present, only a year and a half, it is equivalent to 3-year-old human children, they carry out from the mother's immune function has basically disappeared, the zoo also specifically invited to Talia Autonomous Region People's Hospital pediatrician doctor. (Reporter Zhao Pengfei)

Zoo came to Africa 'little guests'

29 January 2008

http://news.ts.cn/content/2008-01/29/content_2419272.htm (translated with Google translate)

Tianshan (Reporter Yang Lumei reported) only chimpanzee Tianshan Safari, plus 12-year-old library has a new partner, a pair of little less than two years old chimp came here from Guinea. However, the library recently added very good mood, because it always worried that the new partnership will and their own rivalry. Look, two small chimpanzee way, plus the library gave them a blow

Urumqi, the little guy from the tropics to frostbite

January 26, Tianshan like safari holidays, like a gorilla pavilion room was renovated, which not only put a "bed", but also put the swings, ladders and large tires. It is dedicated to the zoo from afar two small chimpanzee ready.

This two small chimpanzee male and female, are called "Pippi" and "Kelly." Talia's home in Guinea, this time they are starting to fly from Guinea, turn in Beijing by plane, on December 17, 2007 to reach the Urumqi International Airport.

Pippi and Kelly was kept in a special wooden box, and because of the cold weather, Kelly's abdomen, right leg frostbite. After the plane, Phi Phi and Kelly were sent to the former Urumqi Zoo, keepers brought in from the Autonomous Region People's Hospital, doctors Kelly doctor.

Two very cute little chimp, but "men and women" are different, when Kelly dressed to the breeder, it was not naughty, can give Pippi wear clothes, no less strenuous. Pippi moment jump, while drill under the bed. No way, the breeder had to come up with a lollipop, it managed to "lure" out.

By the quarantine, January 26, Pippi and Kelly came home.

Old rivalry with fellow Canadian Library jealous

Originally, plus the library is the only gorilla safari Tianshan Mountains, is a darling. While it's a heavy smoker, but also infected with the beer "vices", but this does not affect the breeder and tourists love it, but it is always a clear conscience to accept. Suddenly came two companions smaller than it, plus some libraries can not accept.

Pippi and Kelly lived next door to the library in Canada, have a sense of crisis so that 加库明 significantly. Hear next door has happened, plus the library while knocking the walls, while "whining" to call. Plus a breeder wanted to see the attitude of the new library partners, we hold Kelly and Pippi came to add the library room. Originally plus still wandering around the library suddenly lying in front of a glass wall, staring at Phi Phi and Kelly. Pippi eyes met and after a few seconds, add the library extends "hand" want to touch Pippi, the results hit the glass wall. Suddenly, add the library to run in a circle around the room, then grimace in pain, punching the glass wall. Pippi scared to fall from the keeper's arms to the ground, Kelly breeder straight arms drill. See this scene, the breeder took away Pippi and Kelly.

Fear of the accident three orangutans Separated

Vice Minister of the Ministry of Tianshan Safari moving tube Zhu Yuling told reporters, although chimpanzees are social animals, but not that the library can accept a similar increase immediately, he will rely on "big" bully Pippi and Kelly, currently can not allow them to three live together.

朱玉玲 said Kelly sleep every night when you will tuck themselves, and Pippi did not like to wear clothes, do not love tuck. Every time I see Kelly do these things, it's very happy, ran Quche Kelly's clothes, lift its quilt.

In order to ensure the health of Phi Phi and Kelly, Tianshan Safari them carefully with a meal - every day a cooked egg, two packets of milk, a bowl of porridge, as well as apples, pears and other fruits.

Like chimpanzees to volunteer

To make Pippi and Kelly to develop good habits, the Tianshan Safari is recruiting volunteers to Talia. If you are age 15 to 25 years old, love animals, good health, no diseases, and willing to engage in unpaid volunteer service, you can sign up. _____
